RAK PLANT - U. A. E

RAK PLANT - INDIA

RAK *Bathware* COLLECTIONS

RAK's plant at Samalkot in Andhra Pradesh has successfully introduced more than 70 ranges in India with plans to introduce much more ranges to cater to all segments of the Indian Consumer requirements. The present capacity of Indian Sanitaryware plant is 1.2 Million pieces per annum. Each piece is produced from the finest imported raw materials from best sources across the world to reflect class and excellence followed by RAK worldwide. All products are approved by WRAS (Water Regulations Advisory Scheme, UK) to maintain International standards of superiority. The ISO certification adds the trust and assurance for quality and reliability in all the manufacturing process.

Come, Discover RAK Bathware.

RAK has an exclusive range of Bathware to offer with a very wide choice in designer wall hungs, water closets, wash basins, bowls & counters and related items. RAK Ceramics employs the latest Italian technology for production, using computerized kilns, Italian and British Design Consultants for the latest designs, highest quality raw materials from Europe; a computerized modeling facility to design fascinating models and an in-house quality control and testing laboratory of the highest standards. The sanitaryware models incorporate the most advanced and popular flushing mechanisms.

RAK is planning to provide an opportunity to the Indian consumers who have had a very little choice in designer ranges, affordable prices, margins & instant availability. RAK Ceramics being leader in the vitrified tiles segment in India has been accepted well in the market due to its innovative designs, high quality and aggressive pricing thus providing RAK great edge in comparison to existing manufacturers.

Cynosures

RAK BATHWARE

PLAYS ITS ROLE FOR A BETTER
ENVIRONMENT AND SOCIETY

- Saves 33% in water consumption using the latest flush system in Bathware models.
- Compact elegant designs ensures space-saving in bathrooms by 20-40% depending on Bathware models.
- Utilizes recycled natural raw materials to help in conserving natural resources.
- Adopts Clean Development Mechanism projects to reduce carbon emission during manufacturing process.
- Each consumer-friendly Bathware piece is :
 - Highly Hygienic
 - Stain and rust proof
 - Resistant of acids and alkalis
 - Maintenance-free
- Special Bathware designs are produced exclusively keeping the needs of disabled society.
