DESIGN, PATTERN & SHADE VARIATION GUIDE

Current Development efforts have made ceramic tiles to resemble and look authentically identical to natural materials (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between the two.

Recognising this situation, it is necessary to be informed on the grade of design & Pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of the variation.

High Definition Image

While Laying the tiles please follow the arrow Mark on the back of the tiles

For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talc powder
