Nature Inspired
Digital Glazed Vitrified Tiles

nanopix
High Definition Digital Slabs
GVT Collection

History has it that technology has been man's aide in making his tasks easier and convenient. But every once in a while there comes a time when technology doesn't just make man's task easier; it in fact makes him think, and sweeps him off his feet with the sheer world of possibilities it nests within itself. The Nanopix GVT series from RAK is a testimony to this phenomenon. The series draws its inspiration from nature and its very many aspects. It's earthy colours, the gentle strokes are enchantment in action. Or the Wood Art collection that pays an ode to the beauty of wood without taking anything away from its source. And in case you're asking for more the Nanopix series which with its four distinct sizes gives nature-inspired design the grandiose laden canvas that it rightfully deserves.

Every tile in this collection is created using the revolutionary Glazed Vitrifictaion Technology; which means they're digitally recreated designs which are glazed to nothing short of perfection. And because, they're vitrified, they ensure that they stay inspiring forever and for always. Own a piece of nature with the Nanopix GVT collection. For, it's one of those few times when technology and nature work together to put a grand show.

THE SPACE WILL HELP
DESIGNS BREATHE.
AND THE DESIGN WILL TAKE
YOUR BREATH AWAY.
